Loops

Problem 1. Numbers

- Write a script that prints all the numbers from `1` to `N`.

Problem 2. Numbers not divisible

- Write a script that prints all the numbers from `1` to `N`, that are not divisible by `3` and `7` at the same time

Problem 3. Min/Max of sequence

- Write a script that finds the `max` and `min` number from a sequence of numbers.

Problem 4. Lexicographically smallest

- Write a script that finds the lexicographically smallest and largest property in `document, window` and `navigator` objects.
